Product Overview & Key Features

Aklion A-32 Manual Homecare Medical Bed

The Aklion A-32 is a practical manual homecare medical bed for everyday patient care. It combines manual backrest and legrest positioning, commode and shampoo basin accessories, side-slip prevention boards and stable brake castors in a compact bed format for homecare, nursing and rehabilitation use.

Manual backrest adjustment
Backrest angle 0-75 deg
+/-5 deg for patient positioning.

Manual legrest adjustment
Legrest angle 0-45 deg
+/-5 deg, upper and down.

Manual operation
Reliable mechanical adjustment without electric drive dependence.

Prevent side-slip boards
2 pcs side-slip boards help patient turning and support care.

Commode and basin included
Commode and shampoo basin for daily hygiene routines.

Individual brake castors
4 individual brake castors with 125 mm diameter.
