About the Product Line

Waterproof Protective Covers

AKLION Waterproof Protective Covers provide reliable protection for casts, dressings, and wounds during showering and daily care.

The soft elastic seal creates a watertight barrier that keeps water out while remaining comfortable and easy to use.

Key Benefits

100% Waterproof Seal

Soft elastic membrane prevents water entry.

Comfortable & Gentle

Skin-friendly, flexible seal reduces pressure and irritation.

Reusable & Durable

High-quality materials for multiple uses.

Secure & Reliable

Snug fit stays in place for confident protection.

For All Ages

Designed for both adults and children.

ARM COVER

HAND COVER

ANKLE COVER

THIGH COVER

ELBOW & KNEE PROTECTION

PEDIATRIC USE

Sized for children to protect casts and dressings with comfort and confidence.

Where It Is Used

Designed for everyday protection in a variety of situations.

1

Home Care After Surgery

Keep incisions and surgical sites dry during daily activities at home.

2

Fracture & Cast Protection

Protect casts and splints from water damage while showering.

3

Wound Dressing Protection

Keep bandages and wound dressings clean and dry to promote healing.

4

Showering & Bathing

Enjoy a worry-free shower or bath without risking moisture exposure.

5

Rehabilitation & Recovery

Maintain hand or leg protection during therapy sessions and daily exercises.

6

Hospital Discharge Kits

Ideal for take-home care instructions and post-operative protection.

7

Orthopedic & Trauma Care

Essential for patients with orthopedic injuries, surgeries, or trauma care.

8

Temporary Protection of Medical Dressings from Water

Reliable barrier for short-term waterproof protection.

Typical Users

Patients

Caregivers

Pharmacies

Orthopedic Stores

Rehabilitation Centers

Hospitals

Product Construction

No Loop Style

Engineered for reliable waterproof protection without loops or straps. A soft sealing membrane creates a secure, tight seal around the limb, keeping water out and comfort in.

Soft Sealing Membrane

Medical-grade soft membrane forms a watertight seal, comfortable on skin and easy to wear.

Small Central Opening

The small opening stretches to fit the limb snugly and securely, then returns to seal around it.

No Loop Style Design

The cover features a secure seal without any loops or straps for a clean, streamlined fit.

Closed & Seamless Bag Structure

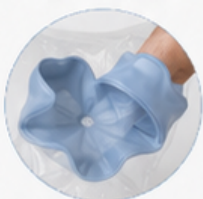

The transparent bag is fully closed and seamless, keeping water out from all directions.

Room for Cast or Dressing

Ample space accommodates casts, bandages or dressings without compromising comfort or protection.

How It Works

1 Open the cover and insert the limb

2 Push the limb through the small opening

3 The membrane stretches and seals tightly around the limb

4 Enjoy full waterproof protection while showering or bathing

Key Advantages

AKLION Waterproof Protective Covers deliver confidence, comfort, and protection—every time.

1. Waterproof Protection

Creates a reliable seal that keeps water out and skin dry during bathing or showering.

2. Easy to Put On and Remove

Stretchable opening allows for quick, hassle-free application and removal without assistance.

3. Transparent Construction

Clear material maintains visibility of the skin and dressing for added peace of mind.

4. Soft Sealing Opening

Gentle, flexible membrane forms a secure seal without pinching or restricting circulation.

5. Reusable Design

Built for multiple uses—rinse, dry, and reuse to support both comfort and value.

6. Adult and Pediatric Options

Designed to fit a wide range of users—from kids to adults—with comfortable, reliable sizing.

7. Multiple Anatomical Configurations

Available in arm, leg, hand, foot, and cast covers to suit various coverage needs and injury types.

8. Compact Retail Packaging

Neatly packaged for easy storage, display, and portability—ideal for home care or travel.

Color System

Color-coded sealing membranes help identify product category, size, or body area at a glance.
